PROFESSIONAL SUMMARY

Technical support professional and former Marine Corps Staff Sergeant experienced in helping users adopt new systems, troubleshooting Windows and communications networks, and writing clear operating procedures. Assisted a help desk serving approximately 200 users and trained more than 210 personnel. Brings patient instruction, accurate documentation, and technical service coordination, supported by ongoing BS studies in Information Technology.

IT SUPPORT AND TECHNICAL SKILLS

User support: Requirements clarification; technical instruction; troubleshooting; service request tracking; repair coordination; stakeholder follow-up.

Documentation and data: SOP development; GlobalProtect VPN access guidance; Excel record review; software migration; equipment and maintenance records.

Technology: Windows; iPads; Microsoft Word, Excel, and PowerPoint; radio, LAN, and SATCOM; ESO; First Due; CAD; GCSS-MC.

PROFESSIONAL EXPERIENCE

Fire Engineer and Firefighter
Nov 2020 - Present

Jacksonville Fire and Emergency Services | Jacksonville, NC

Promoted to Engineer in 2024; served as Protective Equipment Manager.

- Supported the June 2026 transition from Windows mobile terminals to approximately 24 iPads across 12 apparatus and four stations, assisting with implementation, troubleshooting, and user adoption.
- Drove a multi-month Firehouse-to-ESO migration; reviewed Excel source documents and individually created more than 2,700 records for protective equipment, rescue tools, and other assets.
- Troubleshoot electronic and communications equipment, explain corrective steps to users, and coordinate repairs or specialized support while maintaining equipment records.
- Explain inspection findings and corrective requirements to property owners, then follow up to verify repairs and document the result.

DCI/NCIC Technician and Fire Dispatcher
Feb - Dec 2025

Jacksonville Police Department Telecommunications Center | Jacksonville, NC

Temporary assignment during City of Jacksonville employment.

- Authored or revised six SOPs, including GlobalProtect VPN access, VIPER radio channels, and on-call notifications, giving personnel clear procedures to follow.
- Coordinated fire response through CAD, phone, and radio; relayed updates and tracked resources while maintaining accurate records and handling sensitive DCIN/NCIC information.
- Completed more than 80% of the department's DCI-related projects while supporting daily operations and competing, time-sensitive requests.

PROFESSIONAL EXPERIENCE CONTINUED

Communications Leadership and Recruiting Sep 2012 - Feb 2020

United States Marine Corps | Staff Sergeant | MOS 0629

Assignments included Radio Supervisor, Transmissions Chief, Communications Platoon Sergeant, and Recruiter.

- Assisted a unit help desk serving approximately 200 users in offices, field sites, ships, and deployed environments; provided Windows and network support and helped establish new networks.
- Clarified user needs and assessed technical feasibility with supported units; coordinated personnel, equipment, and schedules from setup through sustained operations and teardown.
- Trained more than 210 personnel through demonstrations and practical exercises; maintained training records and operating standards, adapting explanations to user needs.
- Managed maintenance and supply requirements for equipment valued above $8.6 million and processed more than 150 service requests through GCSS-MC, maintaining detailed service records.
- Planned and implemented four HF and eight SATCOM networks for Trident Juncture 18, delivering 1,008 hours of uninterrupted communications supporting more than 100 convoys.
- As a recruiter, coordinated appointments, explained application requirements, answered questions, and followed applicants through a process with multiple stages.

ADDITIONAL EXPERIENCE

Volunteer Firefighter Nov 2016 - Present

Piney Green Volunteer Fire Department | Onslow County, NC

- Assisted the 2025 transition from Emergency Reporting to First Due, helping migrate more than 1,500 hydrant records and their associated histories.

Firefighter and EMT Sep 2022 - Feb 2025

Onslow County Fire Rescue | Onslow County, NC

- Served as company officer at incidents, coordinating crews and communicating changing conditions and resource needs to incident command.
